

# Are You an Insect?

**Author:** Shabnam Minwalla

**Illustrator:** Adrija Ghosh

Level 2

**EEEEEEEEEEEEEEEEEEEEEEEEKKK!**

Do you run when you  
see a cockroach?

Or scream when you  
see a bee?

Look closely instead.

Insects are amazing.  
They help scientists make machines.

**Grasshopper Robots** are tiny.  
But they leap very high.  
Just like real grasshoppers.  
One day, they may explore  
places that no one has ever been.

**RoachBots** run around and  
squeeze through tiny cracks.

Just like real cockroaches.

One day, they could help find people  
who are lost or trapped.

**RoboBees** can fly and perch on plants.  
Just like real bees.

One day, RoboBees might travel to Mars in a  
spaceship, collect mud and gas and bring it back to  
us.

**Water Strider Microbots** can walk on water.  
Just like real water striders.

One day, they could clean our lakes and oceans.

The next time something crawls  
or buzzes around, look carefully.

It might be a RoachBot or a RoboBee.

You never know.

A bot is a computer program or little machine that can perform simple, repetitive tasks.

**RoachBots**

**Grasshopper  
Robots**

**Water Strider  
Microbots**

**RoboBees**

# Are You an Insect?

(English)

Insects are amazing creatures. They can fly, leap, crawl and swim. Scientists are making machines that mimic insects. Would you like to know them?

This is a Level 2 book for children who recognize familiar words and can read new words with help.

Pratham Books goes digital to weave a whole new chapter in the realm of multilingual children's stories. Knitting together children, authors, illustrators and publishers. Folding in teachers, and translators. To create a rich fabric of openly licensed multilingual stories for the children of India and the world. Our unique online platform, StoryWeaver, is a playground where children, parents, teachers and librarians can get creative. Come, start weaving today, and help us get a book in every child's hand!
